

# Proceq takes over sales and distribution of Tapio paper roll testing instruments

Zürich – October 19, 2020.

**Proceq SA, a Screening Eagle Technologies company and market leader in Non-Destructive Testing (NDT) technologies, has signed an exclusive distribution and OEM agreement with Finland-based Tapio Technologies. This strategic move will allow the market for paper roll testing to be better served with a complete portfolio of high-precision instruments.**

From today onwards, Proceq markets and sells Tapio's top of the range instruments under the Proceq brand and the name of RQ8000 Paper Roll Tester. The RQ8000 complements Proceq's current portfolio with PaperSchmidt and Equotip 550 Leeb U instruments and together offer the most comprehensive range of paper testing possibilities. Meanwhile, Tapio will focus on development and production while continuing to provide high-quality instruments.

Customers around the world can now benefit from Proceq's global reach and well-established sales and service network, with over 200 partners and a presence in more than 100 countries.

With its superior measurement performance and its versatile interfaces, the RQ8000 line is a perfect match for Proceq's paper roll portfolio and contributes to Screening Eagle's strategy to digitize inspection and quality testing.

**About Screening Eagle Technologies**

Screening Eagle Technologies is a cloud-based technology platform for intelligent inspection of assets and infrastructure. The company was created through the merger of Dreamlab in Singapore and Proceq in Switzerland with a mission to protect the built world with software, sensors and data. Screening Eagle's full-stack inspection solution combines intuitive software and powerful portable sensors to deliver reliable data for construction and asset maintenance decisions. Powered by data from intelligent and autonomous inspection, Screening Eagle is on a steep growth path to realizing its vision of predictive healthcare that extends asset life and increases long-term value for asset owners. The Eagle team is creative, innovative and inclusive with a passion for inspection technology that contributes to a world of safe and sustainable assets and infrastructure for all.

**About Proceq**

Proceq, a Screening Eagle Technologies company, has been providing innovative inspection and testing solutions since 1954 using a wide range of techniques. Proceq's high-quality devices are Swiss Made, and with subsidiaries in Brazil, the United States of America, the United Kingdom, Russia, the United Arab Emirates, China, Singapore - and a network of over 200 sales and service partners, Proceq provides the best in class customer support and service.
